

## Policy statement

Policy statement concerning occupational Health, Safety and Quality management

Trust Welding Services wants to be a social responsible company. Trust Welding Services provides services regarding welding and fitting activities to her clients. We offer our clients high quality services and work that must at least meet their expectations and if possible even more than that.

In everything we do, we are governed by the principles of Trust Welding Services, reliability and justice. Safety, Health, Quality, efficiency and profitability all get equal attention to achieve the companies objectives. However equal treatment and attention of a safe and healthy work environment of our employees, partners and subcontractors shall always have our highest priority.

We make every possible effort to prevent undesirable occurrences that could result in personal physical or psychological injury or illness amongst our employees, partners or subcontractors, material damages, environmental damages or financial losses.

Trust Welding Services has decided to set up an integrated management system, which includes quality, health and safety. This safeguards the continuity of activities and processes on the short and long term. This means that Safety, Health and Quality are permanent subjects on the agenda. This will ensure that the organization continual improved in the area OH&S and Quality Management.

Things mentioned above mean that it's Trust Welding Services mission to be market leader through a continues focusing on quality, service and reliability and collaboration in this.

Trust Welding Services requires his employees, partners and subcontractors:

- To comply and live according to the law (including legislation relating to occupational health and safety) and regulations and rules of Trust Welding Services and his clients;
- To behave in such way they don't endanger themselves and/or others;
- To correctly make use of the tools and protection systems, equipment, materials and working procedures;
- To immediately report to their superior unsafe, unhealthy situations and non-conformances;
- To immediately report to their superior environmental spills and damages;
- To review and improve the quality of our products and our quality procedures to meet the highest standards in the market.

September 2015,

Trust Welding Services Management,

J.H. Dane
